## Judge Lamb Explains Money Request

Solons Receive Lengthy Letter On Munny Court

Tuesday night City Council delayed action on a Circleville Municipal Court appropriation measure until some explanation is made as to the reason for the request for more funds.

Today Judge Sterling M. Lamb, of the Municipal Court, answered the solons' request. Here is his letter regarding the \$4,970 seven-item additional appropriation bill:

"At my request to Robert H. Huffer, city prosecutor and city solicitor, who by law is the legal advisor to Council, additional appropriations to operate the Municipal Court to the end of the year 1959 were requested to be put into ordinance form and presented to Council.

"An article appearing on Page Two of The Circleville Herald under the date of May 20, 1959 reads in part: 'Councilman D. J. Carpenter asked that the ordinance be held until some explanation of the request is given Council. He said the Council had made what it thought was adequate appropriations for the year in January. 'It is only May. Certainly not all the money appropriated is gone this soon,' he said."

"As this question was not answered in the paper, it by implication infers that all funds appropriated have been depleted. This is not the case and Mr. Huffer was well aware of this fact. All bills are vouchered to the City Auditor and available to Council, and also any remaining funds that have been appropriated. An operating budget for the year of 1959 submitted to council by the Court was a requested sum of \$29,890. The amount appropriated by Council was \$25,930. The balance on hand as of May 14, 1959 being \$16,913.01.

"AS HAS been the case in past years during the operation of the Municipal Court, Council has never appropriated the annual amount requested in the operating budget submitted to Council, and as a result it has been necessary to make additional appropriations before the end of the year. This was true in the year 1958 and will also be true for the year 1959. Council cut the 1959 requested budget by a sum of \$3,960.

"An estimate can only be made as to the amount of money necessary to operate the court each year. The number of criminal and civil cases handled by the court varies from year to year. However, after noting the annual expenses each year, of which Council receives a copy, a fair average of what will be required can be anticipated. Likewise, for the year 1959, from the amount used in some of the items, it was apparent that there would not be a sufficient amount to suffice to the end of the year.

"As this matter had been thoroughly discussed with the city solicitor, it was at his suggestion that in order to avoid the necessity of the introduction of separate appropriation ordinances during the year, that all requests be submitted in one ordinance to cover the remaining part of said year.

"For example in 'Salary for Judge and Acting Judge', the appropriation requested was \$9,200, and the amount appropriated by Council was \$8,800.00, which the county reimburses to the city two-fifths of this amount and the amount remaining as of May 14, 1959 being \$5,777.81. The law provides that during each calendar year the judge is entitled to 30 days vacation.

"In addition he is entitled to 15 days sick leave each calendar year, making a total of 45 days each year. In addition, it is sometimes necessary for the judge to appoint an acting judge where the judge has represented one of the parties in a previous matter. By law, the acting judges receive the same salary as the judge. It is merely a matter of arithmetic that the amount appropriated at the beginning of the year would not be adequate to pay the necessary salary of the judge and acting judges.

"Another example 'Law Library, Legal Books and Supplies'. For this a request was made for \$200. Council appropriated

## 2 More Tax Bills Being Readied by Ohio Senate Dems

COLUMBUS, Ohio (AP)—Democratic majority leaders in the Ohio Senate have high hopes for bringing to a vote in the upper house next week two more bills in Gov. Michael V. DiSalle's third-of-a-billion-dollar increased tax program.

The legislators wound up their 20th work week Thursday and went home until Monday.

Senate Majority Leader Frank W. King (D-Lucas) said he expects to try for enactment, either Tuesday or Wednesday, of the bill to boost corporation franchise taxes 96 million dollars in the next biennium. The other measure is the omnibus sales tax bill.

King was ready to put the franchise tax bill to a vote last Wednesday. He said he had the needed 17 votes for it but that one of the Democrats backed out and the bill was not put on the calendar that day.

The franchise tax bill, King said, must go to a vote before the sales tax bill. They are involved in a compromise to which DiSalle agreed.

The franchise tax bill, as approved by the House, called for an increase of only 32 million dollars in two years.

The sales tax bill was stalled in the Senate Taxation Committee because it contained provisions to put a sales tax on new farm and factory machinery.

Under the compromise, those provisions were taken out of the sales tax bill. The boost in the franchise tax was then tripled over the House figure to make up for the sales tax loss.

Now both bills rest in the Senate Rules Committee. King will not

let them be assigned for a floor vote until he is certain he has the votes to pass them, especially the franchise tax measure.

King still faces a bitter fight over DiSalle's plan to eliminate the sales tax stamps in the other bill.

He may let that bill go to a vote on the Senate floor despite the fact that seven or eight of the 20-member Democratic majority are against doing away with the stamps.

He and DiSalle still are working to line up the required 17 votes to eliminate the stamps.

In other action Thursday, the House passed and sent to the Senate a bill requiring at least a year of parole for prison inmates before their final release from supervision.

In addition to tightening parole measures generally, the bill also officially transfers the Bureau of Probation and Parole from the Welfare Department to the Department of Mental Hygiene and Correction.

Rep. Michael A. Sweeney (D-Cuyahoga), co-sponsor of the parole bill, said 112 convicts were released from prison last year without a period of supervision.

"That was wrong," he said. The one-year parole requirement in the bill would not apply to prisoners who serve out their maximum sentences.

House Minority Leader Roger Cloud (R-Logan) sought to eliminate the requirement altogether, asserting that the Pardon and Parole Commission should be allowed to consider cases on their merits.

The bill also calls for appointment of a superintendent of probation and parole.

## Ye Olde College Try

## Young Auto Thieves Take G-Man's Car

TERRE HAUTE, Ind. (AP)—Charles M. Gunter, 18, of Holton, Ind., and Bobby Dun, 20, Harrison, Ohio, now wish they had picked another car to steal. State police, who arrested them Thursday on Federal auto theft charges, said the pair took the car in Cincinnati Thursday and drove it across the Indiana line. It belonged to E. D. Mason, special agent in charge of the Cincinnati FBI office.

The Apalachin meeting Nov. 14, 1957, at the estate of Joseph Barbara Sr., was broken up by New York state police. The latter could find no charges for holding the 63 delegates, who contended they merely "dropped in" on the ailing Barbara. Various grand juries and state agencies have tried to crack the riddle of Apalachin without success.

## Installment Plan OK'd by College

SPRINGFIELD, Ohio (AP)—A "pay-as-you-go" plan has been adopted by Wittenberg College.

Parents of students will be able to pay for college expenses in installments of eight to 40 months, depending on the plan chosen.

Under the one-year program, tuition and other fixed expenses are made in eight monthly payments at a charge of four per cent.

The two year plan is paid off in 20 months at a cost of five per cent. Three and four year plans are paid in 30 and 40 installments respectively at six per cent.

## Senators Battle Over Wheat Plan

WASHINGTON (AP)—Senators had a choice of at least four widely varying wheat programs today as they tried to choose a way to ease mounting grain surpluses.

It appeared likely that no matter what their decision, the present wheat program—which helped build up the huge grain stocks—must continue another year.

On June 1—just 10 days away—Secretary of Agriculture Ezra Taft Benson must announce a new national wheat program. Present law requires an allotment of at least 55 million acres and a support price of not less than 75 per cent of parity.

Parity is a price determined under farm law to be fair to farmers in relation to their costs.

Both the Senate and House would have to agree on a new program before June 1 to make it effective for the coming year. The House, working on a different program, is not expected to act on it before that date.

Wheat is grown under strict production controls, with each farmer allotted a specific number of acres for his crop. He is penalized if he grows more. But despite sharp acreage cutbacks, the amount of wheat grown has greatly exceeded that sold. The government holds more than a full year's supply obtained under price support laws.

How to cut production still further without hurting the farmers who grow the wheat has become a major problem.

Benson, who has had difficulty winning congressional approval of his farm plans, wants to lower wheat price supports over the next three years, and gradually let farmers grow as much wheat as they want. His theory is that lower prices will cause many farmers to quit growing wheat.

He proposes to base price supports not on parity, but on average market prices of the three preceding years. A bill to authorize his program was introduced Thursday by Sen. Everett M. Dirksen (R-Ill.), the GOP floor leader, as a possible substitute.

Pending before the Senate is a stopgap wheat program for the next two years approved by its Agriculture Committee.

It would retain the 55-million-acre planting allotment, lower supports to 65 per cent of parity

for those complying with individual farm allotments, and tighten penalties for excess planting. Those who voluntarily reduce planting 20 per cent below their allotments would be offered price supports at 80 per cent of parity.

Sen. Hubert H. Humphrey (D-Minn.), acting for a group of Midwest wheat senators, offered a similar plan that would keep the minimum support rate at 75 per cent and offer 85 per cent of parity support for those cutting back 20 per cent of allotments.

Sen. Frank Carlson (R-Kan.) urged a plan that would let farmers sell wheat at market levels, give them an incentive payment above this on their share of the domestic market, and let surpluses move into export at world price levels.

Sen. Homer E. Capehart (R-Ind.) offered the most drastic proposal. He would cut off all farm price supports at the end of this year and then freeze the 9 or 10 billions worth of wheat and other commodities now in government hands because of past programs.

He said the huge surpluses could be disposed in an orderly way over the next several years.

## Father Seeks Jury Trial For Slayer, 15

YOUNGSTOWN, Ohio (AP)—Richard Harter Sr., of Garfield Heights, whose 15-year-old son has been sentenced to the Ohio Penitentiary for killing a Youngstown man, says he will go to the Ohio Supreme Court in an effort to get a jury trial for the boy.

Richard Jr., who had run away from his home in the Cleveland suburb when he shot Edward E. Craven, 61, Oct. 8, pleaded guilty to second-degree murder. He is in Mahoning County jail awaiting transfer to the penitentiary.

The father said Thursday he has fired attorney Russell Mock, who entered the guilty plea for young Richard, and will ask the Supreme Court to set aside the boy's sentence so he can be tried before a jury.

Mock, reached in Cincinnati, said he doubted the Supreme Court would set aside the sentence. He said Richard's guilty plea was voluntary and that the youth was satisfied with the outcome.

"I don't think Richard will change his plea and gamble his life," Mock said. "Richard is the defendant, not the father."

If a trial were secured for the boy it apparently would be on a charge of first-degree murder.

## Pike County Moonshine Still Found Operating

WAVERLY, Ohio (AP)—County, state and federal agents swooped down on an illegal whisky still in western Pike County Thursday night and reported they found it in actual operation.

Parker was to be arraigned before the U. S. commissioner in Portsmouth later today.

## Russia 'Losing' Propaganda Tiff

West Germany Asks Hands-Off Pledge

GENEVA (AP)—U.S. Secretary of State Christian A. Herter told Soviet Foreign Minister Andrei Gromyko today people all over the world have praised the Western plan for a German peace settlement and have been disappointed by Soviet rejection of it.

In a new round of debate in the Big Four conference, Herter argued in effect that the West is winning and the Soviet Union losing the propaganda battle over their rival German programs.

He urged Gromyko to "give further, and I hope serious, consideration" to the Western plan, which provides for successive, parallel steps toward unification, European security and disarmament.

Before the opening of today's session, West Germany pressed the Big Three western powers to get a permanent hands-off pledge from the Soviet Union on Berlin before agreeing to a summit conference.

Foreign Minister Heinrich von Brentano told a news conference he believes the United States, Britain and France must obtain Soviet "confirmation of the existing rights of the West in Berlin as a precondition for a summit meeting."

If that commitment could be secured informally from Soviet Foreign Minister Andrei Gromyko here, he said, it could be made the basis for a formal agreement at the summit. It would bind the Soviet Union to accept the right of the Western powers to keep troops in Berlin and to supply them across East Germany.

After nearly two weeks of formal sessions, the Big Four ministers are now moving into a new phase in which they expect shortly to get down to hard-boiled bargaining in secret over the Berlin and summit issues.

U.S. Secretary of State Christian A. Herter, and British Foreign Secretary Selwyn Lloyd, French Foreign Minister Maurice Couve de Murville and Von Brentano decided today the bargaining will have to go on in small secret gatherings over lunch and dinner tables. These will parallel the big meetings at the Palace of Nations—making this a split-level conference developing partly open and partly secret.

Informants also said the Western ministers adopted a strategy of patience for dealing with Gromyko. They decided they can outwait him and need not make the first overtures to get the talk about Berlin started.

Soviet sources are passing out word that Gromyko is not in any hurry either. They say he is prepared to carry on the deadlock indefinitely.

For today's debate at the Palace of Nations the Western ministers deployed their forces for a military campaign.

The session began at 3:32 p.m. (9:32 a.m. EST).

Herter was assigned to discuss European security, and Couve de Murville was given the problem of Berlin to talk about. Lloyd was named cleanup man with the task of replying instantly to Gromyko if he launched into a new attack on the West.

In calling at his news conference for a Soviet pledge on Berlin, Von Brentano said the Soviets should also display a genuine readiness for a solution of the German question before the Western government chiefs agree to a meeting with Soviet Premier Nikita Khrushchev.

Von Brentano did not reply when asked if he had formal assurance from the Western Big Three that they would refuse to attend a summit parley if the Soviets would not assure Western rights in Berlin.

U.S. Secretary of State Christian A. Herter already has warned Soviet Foreign Minister Andrei Gromyko that President Eisenhower will refuse to attend a summit conference if the Soviets set some new deadline for a Communist squeeze play on Berlin.

Khrushchev originally demanded that the Western powers withdraw their garrisons by May 27. He postponed the deadline indefinitely to clear the way for the Big Four conference to discuss the future of Germany and the Berlin issue.

## Warren Ag Probe Starts

State Sends Subpoena For All Records

COLUMBUS, Ohio (AP)—Agriculture Director Robert H. Terhune has ordered the secretary of the Warren County Agricultural Society, Mrs. Marlowe Rich, to bring all records of the society to his office by Monday afternoon.

Terhune said he sent a subpoena to Sheriff Richard Satterthwaite Wednesday, with orders that it be served. He said he has not received word that it has been delivered.

Terhune said the Agriculture Department is especially interested in looking into the construction of a \$32,000 clubhouse on the county fairgrounds. He said the department would like to know where the money came from.

Other matters to be studied, he said, are the society's rentals to outside interests and data related to lease or renting of racing facilities and other fairgrounds buildings and equipment.

Mrs. Rich has succeeded Corwin Nixon, 45, a Warren County farmer who resigned May 11 as fair secretary. Nixon, a county commissioner for 11 years, was named the same day to be fair manager.

The Warren County situation came into the spotlight when Marvin Kline, an assistant attorney general, reported, a man dressed as a constable pointed a gun at him in Warren County May 11 and told him to stay out of the county.

Kline had been investigating Nixon's dual role as a commissioner and fair secretary after Terhune got an opinion from the attorney general that the two posts should not be held by one individual.

Terhune said his department is continuing to study the situation at four or five other agricultural societies. These investigations involve "certain irregularities in operations" and also other cases of one individual holding two positions, he said.

He said Kline will be present Monday when the Warren County books are brought in, but there are "certain psychological reasons" why Kline might not be active in the other investigations.

## Labor Extremists Chided by Castro

HAVANA (AP)—Prime Minister Fidel Castro today denounced extremist labor agitation for wage raises and hinted that the Communists are behind it.

The revolutionary leader threatened to slap on price and wage controls if pay increases granted by his government result in rises, without government approval, in the cost of essential goods.

He suggested that some labor leaders were conspiring with businessmen to set off a wage-price spiral.

It was the first time Castro has suggested a link between Cuban Reds and acts he called counter-revolutionary. He made the statements during another in a series of marathon TV panel programs on which he is appearing.

## Thug Shouts 'Liar' at FBI Aide in Court

CLEVELAND (AP) — Bank robber Louis Teller shouted "damned liar!" at an FBI agent today and had to be restrained during a federal court hearing on his motion for a new trial.

The handcuffed Teller jumped to his feet and started toward FBI Agent Charles A. Vance. Four deputy marshals restrained Teller.

"You're a damned liar!" Teller shouted at Vance. "You railroaded me to Alcatraz and there is nothing more than you can do to me now. They tried to kill me three times there."

The outburst came as Vance denied promising Teller the freedom of his girl friend, Lora Lee Ritenour, if he would plead guilty to bank robbery charges.

Teller was pushed back into his seat and the hearing was continued before Judge James C. Connell.

Loren E. Van Brocklin, former assistant U. S. district attorney, now an assistant Mahoning County prosecutor also denied making any such promise to Teller.

Judge Connell took the case under advisement and said he will rule sometime next week.

Teller was sentenced to 25 years in prison for the \$22,984 robbery of a Cleveland Trust Co. branch office here Jan. 14, 1955.

His appeal for a new trial was made in a special petition he drafted at Alcatraz.

## 4,268 Pupils Get Eye Tests

Approximately 4,268 area school children have had their eyes examined this school year, according to the Pickaway County Health Department.

This marks the third consecutive year the Pickaway County Department has conducted the eye-testing program.

The programs, considered as sight saving measures for many children, were carried out by Mrs. Helen Pickens, Pickaway County Nurse. She was assisted by school personnel and interested mothers.

Mrs. Pickens said 433 letters were sent to parents, advising them to take their children to eye doctors for further care. Many corrections already have been made, she added.

The local nurse said 16 Pickaway County schools have purchased lighted Snellen Charts which are testing methods approved by the Ohio Department of Health.

ed \$50. It is necessary and required by law that the court be equipped with a Ohio Revised Code. In September of 1958, a single volume of said Code was purchased from the F. J. Heer Printing Company of Columbus, at a cost of \$125. At that time there was a sufficient amount of money appropriated to pay for this book.

"However, as you know that at the end of the year any money remaining that has been appropriated and not used reverts back into the city treasury. Therefore when this bill arrived on January 12, 1959, and only \$50 was appropriated instead of the \$200 or as requested, there was not enough to pay this bill. As a consequence, it has been impossible to voucher this item to the city auditor for payment, although the account has now remained unpaid for a period of eight months. The city solicitor was aware of this account and situation for the past several months.

"The Pickaway County Law Library Assn. has furnished the court with many books. However, it is necessary for the court to purchase some legal books and yearly supplements. The city solicitor can readily advise you what legal books are required to be purchased by Council. The court has to date not purchased same as the cost would be prohibitive.

"ALSO 'INCIDENTALS', the present request is for money to release from the city treasury two bonds of \$200 each for charges of OMVI. This matter is familiar to the city solicitor, as the money was given to the city as suggested by the state examiner, to be later vouchered out of the code of 'Incidentals'. In both of those cases a jury trial had been demanded by the defendant. These demands for a jury trial will be released and tried before the court when and if said bond money is released. A request for \$500 for jury trials was requested, but Council did not appropriate any money for jury trial although there are now pending in the court written demands for jury trials. The solicitor can advise you as to the costs to the city of jury trials.

"The article in the newspaper said I was not present to explain the reasons for the additional requests. I did not see any necessity for my presence to explain these matters, as full knowledge of any and all of the reasons was in possession of the city solicitor who presented the ordinances, as the solicitor and I had fully discussed this matter.

"If any fund is not used it reverts back to the city treasury at the end of the year.

"Since the court has been in operation there has been filed 12,598 criminal cases, and 587 civil cases. Averaging five papers per criminal case, it will be noted that this volume of business has required the use of 62,990 papers which has to be purchased and printed, also dockets and adequate files and equipment to handle same. Also may it further be noted that since the court first was established in January of 1954, that the City has received a total net after all expenses of every nature the sum of \$106,749.09.

"I hope the above is an adequate answer to the reason for the additional requests, and if further explanation is desired, may I state your city solicitor has full knowledge.

## 'Black, White Bunnies Wed,' 'Bama Protests Such a Tale

MONTGOMERY, Ala. (AP) — A book for young children about a white rabbit marrying a black rabbit has drawn protests in Alabama.

It was withdrawn from general public library circulation because segregationists complained that it reflected pro-integration views.

The book is "The Rabbits' Wedding," published by Harper Bros last year for children between the ages of three and seven. It was written and illustrated in color by Garth Williams.

The story tells of the marriage of the black and white rabbits at

a moonlight wedding attended by all the other animals of the forest.

After criticisms of the book appeared, Miss Emily Wheelock Reed, director of the Alabama Public Library Service Division, which lends books to local libraries throughout the state, ordered the book placed on the agency's reserve shelves.

Miss Reed said the rabbit book had not been banned, but merely withdrawn from general circulation. Librarians seeking the volume for their local libraries may obtain it now only by specific request.

Some still carry it on their open shelves, Miss Reed said.

She said she and members of her staff had received complaints about the book and that a member of the Legislature, Sen. E. O. Eddins, questioned it.

She said it isn't unusual to take books out of general circulation in public libraries, and that it isn't always for racial reasons.

Meanwhile, the publishers issued a statement from the author saying the book had "no political significance."

Williams, now in California, added in the statement:

"I was completely unaware that animals with white fur, such as white polar bears and white dogs and white rabbits, were considered blood relations of white beings. I was only aware that a white horse next to a black horse looks very picturesque."

Williams said his story was not written for adults. He said they "will not understand it, because it is only about a soft furry love and has no hidden message of hate."

## Court Clerk At Convention

Mrs. Naomi Houghton, chief clerk of Circleville Municipal Court, attended a one-day convention of Ohio Assn. Municipal Court Clerks, held yesterday in Canton.

The convention and noon luncheon was held at the Belden Hotel. Mrs. Houghton was accompanied by Theresa Hamm, Chief Clerk of Chillicothe Municipal Court.

It marked the second meeting of the Association which was formed last May.

Welcome address for the event was given by Charles L. Babcock, Mayor of Canton. Several speakers gave the assembled clerks a better insight on municipal court procedures.

SPEAKERS included F. Glen Sparks, assistant secretary of state; Carl Johnson and Elmer Keller of the Bureau of Inspection and Supervision, office of the State Auditor; and E. A. Engert, chief field representative of the Public Employment Retirement System.

Johnson spoke on "Law Library Fine Distribution" and Engert gave an address on "Your Retirement System."

## Ashville Nine Gets Title Share

Ashville High School's baseball team clinched at least a tie for the Darby Valley League crown yesterday with the help of the weatherman.

The Bronco's game with Jonathan Alder was cancelled by rain. Ashville, with an 8-1 mark, must play second-place Mt. Sterling Monday at Ashville. A victory will give Ashville undisputed possession of the title. A loss will mean a second game with Mt. Sterling, but still the Broncos have at least a share of the crown.

## Starkweather Granted Stay From Execution until June 4

LINCOLN, Neb. (AP) — Charles Starkweather, 20, slayer of 11, won a two weeks stay of execution today a little more than an hour before he was to go to the electric chair.

Chief U.S. Dist. Judge Richard Robinson of Omaha stayed the execution until June 4. He said that would give Starkweather time to appeal a District Court denial of a writ of habeas corpus.

Starkweather was scheduled for execution about 6 a. m. for one of the slayings during a murder rampage 16 months ago. The stubby red-haired youth admitted 11 gun and knife killings.

Official witnesses and newsmen were already gathering in a pre-dawn thunderstorm when the acting state penitentiary warden, John Greenholtz, notified them the execution had been stayed.

Protestant Chaplain Robert Klein had relayed the word of a possible stay to Starkweather. Half an hour later Starkweather learned the reprieve actually had been granted.

"He was pretty shaky," said Greenholtz. "He was all prepared to go."

Before the execution was called off, Starkweather had spent a nervous night drinking a good bit of coffee, the warden said.

At the Women's State Reformatory in York, where Carl Fugate, Starkweather's murder tour com-

panion, is serving a life sentence, Supt. Hattie Bowley said the girl had not been told of the stay of execution, and probably won't learn of it from reformatory officials.

What Carl has learned of the case in the past has come from her attorneys, Mrs. Bowley said.

The 11th hour effort to save Starkweather from death was conducted by his father, Guy.

The elder Starkweather first phoned Judge Archibald K. Gardner of the U.S. 8th Circuit Court of Appeals in Huron, S.D.

Judge Gardner referred Starkweather to Judge Robinson who was routed from bed at 1:45 a. m.

Robinson called U.S. Dist. Judge Robert Van Pelt in Lincoln. Van Pelt was the judge who rejected the habeas corpus application.

Judge Robinson observed that Starkweather had been without help of an attorney in seeking the habeas corpus writ and that he contends his constitutional rights are being violated.

At 4:22 a. m. Robinson signed the order staying the execution.

Word was phoned to Greenholtz and a U.S. marshal arrived at the prison with the signed order at 6:10 a. m.

Indiana Irishman, 102, Vows To Spend 100 More in Ohio

MIDDLETOWN, Ohio (AP) — You have to hang a little desperately to an old swinging bridge over Brown's Run Creek west of here to get to the home of an Indiana Irishman who vows he'll spend the second hundred years of his life there.

John Greenlee, 102 years young, sold his 20-acre farm near Madison, Ind., two years ago to cast his lot with the Buckeyes.

He got a little perturbed with Indiana officials when they would not let him renew his driver's license when he reached the age of 99.

"But I really don't see well enough to drive anymore," he admitted.

He sold his 25-year-old car just before moving here.

Greenlee doesn't farm anymore, either. He's really retired.

"All I do now is spend my time chawin' and sleepin'. Television is all right, I guess. I don't pay much attention to it. And my hearing is almost gone. That lets out the radio."

Born of immigrant parents in West Virginia on Sept. 6, 1856, he moved with his family to Indiana and spent the first 99 years of his life there.

He remembers nothing of the Civil War.

A lifelong Democrat, he missed voting in the last election "for the

first time in my life." He hadn't had residence in Ohio long enough.

Greenlee recalls many presidents, but says "The best of the lot was Grover Cleveland. He made a pretty good president. They got him out of office once but he got elected again four years later."

Greenlee is still disappointed about Rutherford B. Hayes defeating Samuel Tilden by one electoral vote in 1876.

Greenlee's wife, Pearl, who is in her 70s, is his second wife.

"My first wife died 35 years ago and I 'batched' it for 15 years until this one came along," he said indicating his smiling wife.

"He calls me 'The Scrub,'" she commented.

"But she's got all the money," John replied. "I ain't got nothin'."

Mrs. Greenlee is pretty proud of her husband. "He wouldn't allow a weed to grow among the crops. And he put his last roof on the house in Indiana when he was 87."

"I sure wish I could do a little work now and then," confesses John. His past includes many jobs — from farming to ditch-digging to

coopering (the same as his father) to railroad carpenter.

"The only exercise I get is when I have to give her (his wife) a swat to get moving faster over the swinging bridge."

And there's one thing he says

he doesn't like about Ohio — the taxes.

"They're outrageous," says 102-year-old John Greenlee. "They're worse here than they ever were in Indiana."

Chicken Feeder Holds More Than Chick Feed

OKLAHOMA CITY, Okla. (AP) — When Roy Wilmuth opened his new chicken feeder he found \$1,000 in it. He had bought the feeder at the hardware store of Ralph Stanley over the weekend.

\$1,000 REWARD FOR MISSING FAMILY—Jean A. Brown, 35, maritime engineer, is shown with his missing white wife and their children, also missing, in Norwood, N. J. He said he thought threats over the inter-racial marriage prompted her to flee with children. She took cash, clothes.

Employment Hits New High

Employment is rapidly catching up with the business recovery. In April, unemployment dropped by 735,000 to 3.6 million, the lowest since December, 1957, the U. S. Department of Labor has announced. At the same time, civilian employment increased by more than 1.1 million, bringing the total of jobs to 65 million, an April record.

The sharp improvement, which is described as more than seasonal, resulted from a pickup in agriculture, construction and some sections of the durables industry. Announcement of the figures followed predictions of the continued healthy growth of the economy well into next year.

The highly optimistic forecasts came from the Commerce Department's Business Advisory Council, a panel of some of the nation's top industrialists, which made its annual checkup of the economic heartbeat.

The prognosis was an expansion of the

present record \$465-billion rate of the gross national product to about 500 billions in the second quarter of 1960. Heartening news also came from the automobile industry which now estimates total 1959 car sales at more than 6 million.

But the most significant statement to come from the Business Advisory Council was the general conclusion that the economy is making a "slow and moderate growth," but "without any zip." That's good. Last year's recession was the result of an overdose of "zip."

No-Party Race Shapes Up

Both the Republican and Democratic Parties are in a quandary because neither party has a doctrine which belongs to itself alone, and both parties have conservative and liberal wings which are more likely to quarrel within the party over doctrine than against the opposing party.

Such a situation could only have developed in a country where political parties are vehicles for election rather than associations for positive beliefs. Thus, we find in the Republican Party a committee appointed by former National Chairman Meade ALCORN, which ostensibly exists to formulate party policy and which includes few Republicans of national eminence and leadership.

The chairman of this committee of 44 members is Charles H. Percy who is not known to Republicans generally. But Herbert Hoover, Thomas E. Dewey, William F. Knowland, and other outstanding Republican leaders are not members of it. Most of the Republican members of Congress are not on the committee. It is to be presumed that such a body will die very quickly.

The Democrats have the same sort of thing. They have a committee of 44 members, that is, of what might be called ex's. This committee also does not include much of the present Democratic leadership in Congress, but does include remnants of the Roosevelt and Truman Administrations.

deadlock the Democratic Convention and thereby open the door to Stevenson.

The two largest delegations in 1960 will be from New York and California. (Democratic: New York 98 votes in the convention; California 68; Republican: New York 96; California 70.) The influence of these two states will therefore be considerable.

As it stands now, the New York State Democratic delegation will be led by Carmine DeSapio who presently is not pledged to any candidate. There are groups in the New York State Democratic Party who favor Sen. John Kennedy. His father, Joe Kennedy, is very influential in New York Democratic politics.

On the other hand, so is Harry Truman influential in New York politics and he is reputed to favor Sen. Symington. Mrs. Roosevelt and Sen. Herbert Lehman are attempting to develop power in New York State, so that they, with Thomas A. Finletter, can wrest from Carmine DeSapio the party leadership and therefore the votes at the convention.

It looks now as though the Mrs. Roosevelt-Sen. Lehman combination has failed and that DeSapio will prevail, which can mean no more at the present time than that Stevenson will neither be the first nor the second choice of the New York delegation.

It has been assumed by nearly all professional politicians of both parties that 1960 will be a Democratic year. Today, doubt is growing about that. A Nixon-Symington contest or a Nixon-Johnson contest could be very interesting and uncertain.

Nail Diseases Obscure

**By Herman N. Bundesen, M.D.**

If I asked you to name as diseases as you could think of, you undoubtedly would be able to rattle off quite a long list.

But I'll bet not a single person would mention any disease of the nails.

This wouldn't surprise me a bit because people seldom think about their nails except to trim or polish them. Yet diseases of the nails are surprisingly widespread.

The most common infection is ringworm. It accounts for about 20 per cent of all nail infections. Ringworm may be caused by various organisms, but generally the villain is one of three types.

Probably the first sign that something is wrong will be a scaling at the edge of the nail. Usually only one nail is affected at first. Then the disease spreads to others. Anywhere from one to all ten may be affected.

Once it gets underway, the infection usually becomes pretty obvious. The nail is likely to become "heaped up" and you won't be able to see through it any more.

The edges of the nail will become powdery. Now there might or might not be accompanying skin infection. But, as the disease progresses, fungi will be noticed at the nail. And these fungi are apt to infect the skin.

The result is usually an increasing amount of ringworm infection. You probably will call it athlete's foot, whether it is the finger or toenails that are involved.

The disease's progression is generally painless. And that is unfortunate. For, if there were pain, more victims would seek prompt medical treatment. As it is, far too many of them just let it go.

If the disease is severe, it might mean complete loss of a nail, or

nails. Maybe the nail will simply disintegrate, maybe it will become separated from the nail bed.

As you might suspect, persons handling and packing fruit and vegetables are especially vulnerable to certain types of nail diseases.

There are several things your doctor can do to help you and your nails, should they become infected. If the infection is deep, he might have to remove the nails. If it isn't roentgen rays might be helpful.

Not long ago a new penetrating nail base was developed to carry iodine or other preparations throughout the nail plate.

**Question and Answer**

**F. D.:** How often should one wash one's hair? Is there any general information available as to how to keep the hair healthy?

**Answer:** Often enough to keep it clean but not too often to cause drying of natural oils. General care of the hair would include a normal diet with sufficient vitamins and minerals, keeping the hair clean and brushing it daily.

The World Today

WASHINGTON (AP)—This Congress—as congresses go—is no fireball. Its work for the year so far is about par for the course: in mid-May a few pieces of major legislation finished, a lot more pending.

Congresses usually wind up in a rush in the last few weeks before quitting in midsummer. This one can be expected to do the same. If there's any surprise this year, it's this:

Relations between President Eisenhower and the Democratic-run Congress are still pretty gentle. Except for demanding that the Democrats keep down spending to balance his budget, he hasn't tried to use a whip.

There were guesses earlier this year — after the Democrats got overwhelming control of both houses in the 1958 elections—that they would take things into their own hands and romp over Eisenhower.

Particularly they complained early that he was asking for too little money to meet what they considered the country's needs. But his repeated demands for economy, which he made a major issue, seem to have chilled them a bit.

The one time they tried to rough him up—by hitting him with a bill they thought they could pass even over his veto—he knocked them flat, vetoed the bill, and made it stick.

This was when they tried to take some power away from Secretary of Agriculture Ezra Taft Benson. This was not really a money bill at all. It would have taken from Benson his present power to veto loans by the Rural Electrification Administration.

Eisenhower's veto was the 138th he had made stick since taking office in 1953, without a single upset.

It may have forced the Democrats into more modest notions about pushing him around. But it's too soon to say.

The Democrats already are flirting with another veto, this time on a housing bill.

Other tests may lie ahead on airport aid and aid to depressed areas, for which pending bills passed by one or both branches exceed Eisenhower's proposals.

But the current fight is over housing.

Earlier this year Eisenhower proposed a \$1,600,000,000 housing program. This was cut-rate stuff

to the Democrats. So the Senate passed a \$2,600,000,000 bill and sent it to the House.

There, after knocking down a Republican attempt Wednesday to get approval for a \$1,300,000,000 bill, House Democrats went on to consider a \$2,100,000,000 measure. That is 500 million dollars more than Eisenhower asked and 500 millions less than the Senate thought necessary.

No matter what kind of bill the House finally passes, if it's different from the one which got through the Senate, no bill can reach Eisenhower until both houses reconcile their differences and agree on one bill in all details.

Already the House Republican leader, Rep. Charles A. Halleck of Indiana, has warned the Democrats that even if the House bill gets passed in its present form, Eisenhower will veto it.

And the Democrats have no reason to think they can override this veto, either, after what happened on the last one.

**RALPH PERRY OVERSTREET** is being sought by the FBI for unlawful flight to avoid prosecution for armed robbery. He is wanted by the Metropolitan Police Department, Washington, D. C., in connection with the armed robbery which took place in a District of Columbia Western Union office on Feb. 2, 1957.

Reportedly armed with a shotgun, Overstreet allegedly forced two Western Union employees into a back room and took approximately \$500 from the cash drawer and departed. He also took several traveler's checks which were recovered.

A Federal complaint was filed in Washington, D. C., on June 10, 1957, charging Overstreet with interstate flight to avoid prosecution for armed robbery.

The fugitive, whose former occupations include cannery worker, farm hand, laborer and plumber, used aliases of Ralph P. Overstreet and "Bunky."

Overstreet has been convicted for breaking and entering and is alleged to have carried a shotgun during the robbery. He reportedly is subject to epileptic fits, may be armed and should be considered dangerous.

## Purses of Akron Workers Feel Pinch of 36-Day Strike

AKRON, Ohio (AP)—The pocketbooks of 14,550 rubber workers here are beginning to feel the pinch of a 36-day strike.

Relief rolls are growing. Banks report a brisk run on strikers' savings accounts and a high rate of cash-in on savings bonds.

The strike started April 16. Some 18,000 workers at eight Firestone Tire and Rubber Co. plants and 14,000 at eight B. F. Goodrich Co. plants walked off jobs in 14 cities in 10 states. Nearly half of the 32,000 are concentrated here in this rubber industry capital.

The strikers are seeking improved pensions, insurance, working conditions and supplemental unemployment benefits. Wages are not an issue.

Clyde Falor, relief director of this city of 310,000, said there hasn't been such a demand for relief as the result of a strike since 1954, when the United Rubber Workers Union struck Goodyear Tire and Rubber Co. for 54 days and Firestone for 18 days.

Falor said the city is paying out \$250 a day to help feed strikers. He expects that figure to double next week, triple the week after that and continue to multiply until the strike ends.

The maximum city relief payment to a striker's family—and some include as many as nine children—is \$44.42 a week. Money received from the union's strike relief funds is deducted from the city payments.

Union benefits, which were not paid until the third week of a strike, go up to \$15 a week for striking Goodrich employees and \$12 a week for Firestone workers.

Almost half of the striking union members here do not qualify for the strike funds, which are paid only on the basis of the workers' needs.

Another result of the strike is a sizable number of requests for extensions on loans and mortgages, banks reported.

"Phone calls from strikers are almost driving us nuts," one bank official commented.

In most cases, payments are being set back to two weeks after the strike ends. The union reports that creditors are being extremely cooperative in deferring payments.

Despite the economic pinch, business is excellent, said Emmett L. Carter, executive secretary of the Akron Merchants' Assn. However, he added, if the strike continues, the situation could change quickly and for the worse.

A Firestone official estimated that striking company employees have lost an estimated 11 million dollars in wages as a result of the strike.

Negotiations to end the strike—longest in Goodrich history—are continuing. Goodrich negotiators are meeting in Canton. The Firestone meetings are in Cleveland.

## Judges Files Curb On Highway Agency

NEWARK, Ohio (AP)—Common Pleas Judge Charles B. Holtsberry ruled today that the State Highway Department cannot legally acquire or appropriate land for highway purposes until a public hearing is conducted.

He gave the ruling in the case of the Barker and Vance Furniture Corp. of Columbus, which had started building on land wanted by the department for the Granville bypass. The Highway Department and the company were unable to agree on a price for the property, and the department filed suit here.

The judge said the state did not hold a public hearing on the matter to obtain the consent of either the company or the municipality involved. The state argued that a public hearing was not actually required under law because the highway director is not required to follow any recommendations coming out of the hearing.

## Not All Teamsters Bad, Prexy Says

TOLEDO, Ohio (AP)—The president of Defiance College accepted an honorary life membership in Teamsters Local 20 Wednesday and said the Local, like the Republican Party, is suffering from some popular misconceptions.

"The unfortunate thing is that it's not what you are today, but what people think you are," Kevin McCann, former special assistant to President Eisenhower, told the stewards' council of Local 20. He said that in this respect, the local is in the same situation as the Republican Party.

McCann said the union "is not getting through to the public." "Here in Toledo," he observed, "you run a very good shop and throughout the country there are other teamster locals like your own—but that is not the popular impression."

## Highway Employee Travel Curtailed

COLUMBUS, Ohio (AP)—Highway Department employees who drive an average 1,000 miles a month or more in their work are henceforth restricted from collecting mileage payments when using their private cars.

That's the ruling handed down Wednesday by Highway Director Everett S. Preston.

He said many employees have been paid mileage for driving more than 2,000 miles a month in their own cars. "I don't believe people who drive that many miles could be accomplishing much work," he added.

The payments amount to eight cents a mile for the first 500 miles during any two-week period, and 6 1/2 cents for each mile after that.

## The Kingdom Divided

THE NORTHERN TRIBES REVOLT AND CROWN  
JEROBOAM KING

Scripture—I Kings 11:9-12:33.

**By NEWMAN CAMPBELL**  
FOR ALL Solomon's reputed  
wisdom, he, too, did evil in the  
sight of his Lord. God therefore  
stirred up adversaries unto Solo-  
mon, Hadad the Edomite, who  
had fled to Egypt, and Rezon,  
who conquered Damascus and  
reigned there. So Solomon's last  
days were not peaceful ones. Even  
Jeroboam, whom Solomon had  
honored, "lifted up his hands  
against the king."—I Kings 11:  
14-26.

After the death of Solomon,  
his son Rehoboam became king.  
He sent for the older men and  
consulted with them as to how he  
should rule over his people. They  
said: "If thou wilt be a servant  
unto this people this day, and wilt  
serve them, and answer them,  
and speak good words to them,  
then they will be thy servants  
for ever."—I Kings 12:6-7.  
Then he consulted the young  
men of his own age, and they  
said to tell the people: "Whereas  
my father did lade you with a  
heavy yoke, I will add to your  
yoke: my father hath chastised  
you with whips, but I will chas-  
tise you with scorpions"—mean-  
ing, of course, that he would  
make life miserable for them.—  
I Kings 12:8-11.  
Sad to say, Rehoboam disre-

"Thus Israel and Judah became  
two separate kingdoms, a separa-  
tion that lasted for 250 years,  
until Israel's kingdom fell." I am  
quoting from *Peloubet's Select*  
*Notes*, edited by Dr. Wilbur M.  
Smith.

When Rehoboam got to Jerusa-  
lem, he assembled "all the house  
of Judah, with the tribe of Benja-  
min, an hundred and fourscore  
thousand chosen men, which were  
warriors, to fight against the  
house of Israel, to bring the  
kingdom again to Rehoboam, the  
son of Solomon."

"But the word of God came  
unto Shemaiah the man of God,  
saying, Speak unto Rehoboam...  
and the people, saying, 'Thus  
saith the Lord, Ye shall not go  
up, nor fight against your breth-  
ren the children of Israel: return  
every man to his house' and His  
word was obeyed.—I Kings 12:21-  
24.

Then Jeroboam made a great  
mistake. Afraid to go to Jerusa-  
lem to offer a sacrifice, he built  
two calves of gold, "and he set  
one in Bethel, and the other put  
he in Dan," offering them as gods  
for his people to worship. He  
even ordained a feast in the  
eighth month, on the 15th day of  
the month, and offered sacrifices

### MEMORY VERSE

"What doth the Lord require of thee, but to do justly, and to  
love mercy, and to walk humbly with thy God?"—Micah 6:8.

garded the wise old men's advice,  
and adopted that of the youths.  
"So when all Israel saw that the  
king hearkened not unto them,  
the people answered the king,  
saying, What portion have we in  
David? neither have we inheri-  
tance in the son of Jesse: to your  
tents, O Israel: now see to thine  
own house, David. So Israel de-  
parted unto their tents."—I Kings  
12:16.

"But as for the children of Is-  
rael which dwelt in the city of  
Judah, Rehoboam reigned over  
them. Then King Rehoboam sent  
Adoram, who was over the tribu-  
te, and all Israel stoned him  
with stones, that he died. There-  
fore King Rehoboam made speed  
to get him up to his chariot, to  
flee to Jerusalem. So Israel re-  
belled against the house of  
David."—I Kings 12:17-19.

"And it came to pass, when all  
Israel heard that Jeroboam was  
come again, that they sent and  
called him unto the congregation,  
and made him king over all Is-  
rael: there was none that fol-  
lowed the house of David, but  
the tribe of Judah only."—I Kings  
12:20.

# Another Great Day for America —and Oil Was There!

For 100 years—since 1859—oil's people and  
products have been responsible for milestone after  
milestone in America's march into the future.

From the hushed doubts of a Long Island airfield to the rousing cheers of  
a Paris throng, Charles Lindbergh flew into history. Oil was there... oil  
helped make it possible!

Oil's first hundred years have brought undreamed-of changes in the lives  
of all of us. Not only in efficient, economical fuels and lubricants but in  
clothing, food, medicine, housing, and in many other ways we reap the  
benefits of a century of oil progress.

At the root of this progress lies the tradition of freedom fostered and  
cherished in our country. Working in this same freedom, oil's men and  
women will bring forth more Great Days for America. No one knows all  
the wonders that lie ahead for America. But we know this—progress lies ahead  
... and oil will be there!

Another  
Great Day Ahead  
...and oil  
will be there!

Someday in the future, flying ma-  
chines not even on today's design-  
ing boards will span the Atlantic  
Ocean in less than an hour. When  
this Great Day for America ar-  
rives, oil will be there!

## Manion Hurls No-Hitter for Stonerock Nine

Butch Manion of Stonerock's TV hurled a no-hit softball game at Ted Lewis Park last night to down General Electric, 8-0.

The Stonerock aggregation, paced by Jack McGuire's two doubles, collected six hits in the match. Teammate Roy Downing also had a two-bagger.

Manion remained in complete control throughout, fanning eight and walking one. John Detillion took the loss, striking out five and issuing passes to two.

The winners exploded for four runs in the third, two in the sixth and a pair in the seventh. Their effort was aided by five GE errors.

**SECOND** round play in the local loop opens tonight with two games on the card. Circleville Merchants, winners of the first round, take on River Oil in the first test which is slated to start at 7:15.

The second battle pits Laurelville against Veterans of Foreign Wars.

River Oil, defeated by the Merchants in the first game of the first round, will be out to get revenge for the 2-0 loss. Jack Hix probably will hurl for the Merchants, opposing either Phil Ramey or John Farnham.

## Winless Bob Friend Is Still Hopeful

ST. LOUIS (AP) — Just like tomorrow, tarnished Pittsburgh pitcher ace Bob Friend knows it's coming.

"It" is the inevitable inquiry: "What's the matter, Bob?" "I'll bet I've been asked that question over 500 times," said the 22-game winner of last year who has absorbed seven losses in a victoryless 1959.

But Friend has not outwardly allowed the seven defeats to dilute his aplomb.

"I'm confident I'll snap out of it," Friend said Thursday night. "It's one of those things that happen in baseball."

## High School Sports Contests Slated

COLUMBUS, Ohio (AP) — A starting field of 35,136 athletes from 1,013 Ohio high schools will be on hand today for the two-day test of a four-ring sports circus.

The scholastic stars state their 52nd track-field meet, the 33rd golf tournament, the 32nd baseball playoffs and the 40th tennis championship. All final events are Saturday after today's first rounds in tennis, golf and baseball and qualifying heats in track and field.

Xenia Woodrow Wilson will defend its Class AA crown in track, but is given a slim chance to repeat. Springfield is favored to recapture the Class AA laurels.

Ohio's Weekend Fishing Prospects: Fair to Good

COLUMBUS, Ohio (AP)—Fishing is going to vary from fair to good this weekend, depending upon local conditions.

Here's the outlook by districts:

**NORTHWEST**—Streams in Allen, Auglaize, Crawford, Defiance and Henry counties are clear and normal and fishing has been reported as fair. Most lakes in fair to good fishing condition with both Grand Lake, Mercer County, and East Harbor, Ottawa County, clear and normal with some fish being taken.

**NORTHEAST**—Fishing conditions throughout this area appear good in both lakes and streams. Most streams throughout this district appear normal and clearing with fair catches reported.

**EAST CENTRAL & SOUTH**—Fishing conditions in this district range from poor to fair. The Muskingum River ranges from normal in Washington County, to roily and high in Morgan County. Other streams are only reported as in fair condition. Some lakes report clear and normal water and fair to good fishing results.

**CENTRAL & SOUTHERN**—Intermittent rains throughout this area within the past few days may have changed conditions slightly although at the time this report was being made most streams were roily but clearing. Lakes were, for the most part, in fair to good condition. Best stream fishing may be found in Adams, Lawrence, Pike, and Ross counties.

**SOUTHWESTERN**—Such favorite lakes in southwestern Ohio including Grant, Kiser, Hosterman, Stonelick, Cowan, Sinclair, Indian and Lorain report clear and normal water with good catches of bass, bluegills crappies and catfish. Streams vary from clear and normal to roily and high.

**SANDUSKY BAY & BASS ISLAND AREA**—Fishing in Sandusky Bay is reported as fair to good with white bass, crappies, sheepshead, channel catfish, and carp being caught. In the Bass Island area outlook is fair and some smallmouth bass are being caught. In East Harbor, bass, bluegills, and a few crappies and catfish are being taken.

Dear Abby...

By Abigail VanBuren

A Little Light on Subject

DEAR ABBY: My husband and I recently bought a home and finished it in Early American. For a housewife his sister gave us a Chinese Modern lamp. It stands three feet high, has a bright red base with a black lacquered shade and gold dragons all over it. It looks terrible and I don't want to put it where it can be seen. I know his sister from way back and she did it just to be mean. You'd never see such a cheap piece of junk in HER house. My husband says I should use it anyway so her feelings won't be hurt. I don't want to ruin the looks of my house. How can we settle this peacefully?

DEAR ABBY: In a recent column, a young girl tells of a quick

Jets Rock Miami Again

By THE ASSOCIATED PRESS

Len Cardenas and Dan Morejon are the favorite sons of Havana today. Their hitting lifted the Sugar Kings from the International League cellar with a 5-3 victory over Richmond.

In the only other IL game scheduled Thursday night, Columbus resumed its old habit of beating Miami, knocking off the Marlins, 7-6 at Columbus. It was Columbus' sixth victory in eight games with the league leaders.

Cardenas unloaded a bases loaded single in the sixth inning off reliever Johnny James that drove in the deciding run. It gave Havana a 4-0 lead at the time, but Richmond bounced back with three runs in their half of the inning to flash the danger sign. Morejon's ninth-inning solo homer iced it.

Leo Rodriguez and Tom Burgess accounted for half of Columbus' 14 hits.
